### DETAILED ACTION

This Office action is responsive to the amendment filed on October 3, 2005.

1. Claims 2-3 and 5-19 are allowed and renumbered as 3, 1, 2, and 4-17, respectively.
2. The following is an examiner's statement of reasons for allowance: the prior art taken either singly or in combination fails to anticipate or fairly suggest, among others, at least: a) a first doped (with indium) region being implanted to a depth of about 800 Å and a second doped region having a second conductivity type located beneath the first doped region for producing photo generated charges, as recited in independent claim 3; b) the first and second doped regions both including indium ions, the indium ions in the first region acting as electron acceptors, the indium ions in the second region acting as electron donors, as recited in independent claims 5 and 8; and c) the first and second doped regions being doped with indium, as recited in independent claims 12 and 16; especially when these limitations are considered within the specific combination claimed.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
